

UNITED STATES DEPARTMENT OF AGRICULTURE

SERVICE AND REGULATORY ANNOUNCEMENTS

BUREAU OF ANIMAL INDUSTRY

APRIL 1934

[This publication is issued monthly for the dissemination of information, instructions, rulings, etc. concerning the work of the Bureau of Animal Industry. Free distribution is limited to persons in the service of the Bureau, establishments at which the Federal meat inspection is conducted, public officers whose duties make it desirable for them to have such information, and journals especially concerned. Others desiring copies may obtain them from the Superintendent of Documents, Government Printing Office, Washington, D. C., at 5 cents each or 25 cents a year (foreign, 45 cents). A supply will be sent to each official in charge of a station or branch of the Bureau service, who should promptly distribute copies to members of his force. A file should be kept at each station for reference.]

NOTICE REGARDING MEAT INSPECTION

GELATIN COATINGS FOR SMOKED MEAT

Protective coatings of gelatin, with or without sugar, glucose, or like substances, applied to cuts of smoked meat so as to form a tough, separable, protective coating, which is not consumed with the product, are held to constitute immediate or true containers. When such coatings are applied, the products should be marked with the essential features of a trade label, namely, the true name of the product, the inspection legend, and the establishment number. When interstate shipments are involved, the statement of weight should also be applied.

PROCEEDINGS UNDER THE PACKERS AND STOCKYARDS ACT

Docket no. 441.—In re Clark Commission Co., Inc., market agency and dealer, North Portland, Ore. The Acting Secretary of Agriculture on February 26, 1934, issued an inquiry alleging that respondent had failed, neglected, and refused to execute and maintain a reasonable bond to suitable trustees to secure the performance of its obligations incurred as a market agency and dealer. On March 6, 1934, respondent admitted the truth of the matters and things alleged and waived a hearing thereon. On April 7, 1934, the respondent was suspended from registration as a market agency and dealer for a period of 6 months, with leave during said period to apply for a revocation of this suspension upon showing to the satisfaction of the Secretary that it has filed a suitable bond. Respondent was also ordered to cease and desist from doing business as a market agency and dealer without executing and maintaining a reasonable bond.

Stockyards Posted

The Wapakoneta Union Stock Yards, located at Wapakoneta, Ohio, was posted as coming within the jurisdiction of the Packers and Stockyards Act on April 23, 1934.

DR. U. G. HOUCK DIES

Dr. Ulysses Grant Houck, for 38 years an employee of the Bureau and since 1928 its associate chief, died April 24, after an illness of several months. He was 68 years old.

Doctor Houck was born on a farm in Luzerne County, Pa. In 1895 he received the veterinary degree of V.M.D. from the University of Pennsylvania. For a period he was resident surgeon at the veterinary hospital of the university. He also performed special work for the State.

At 30 years of age he was appointed through civil-service examination in the Federal Bureau of Animal Industry as an assistant inspector, with headquarters at Chicago. His work dealt principally with meat inspection. Later he transferred to Sioux City, Iowa, and subsequently was promoted to an inspectorship at Boston. For the last 16 years he directed activities of the Bureau's Division of Hog Cholera Control. Doctor Houck was a pioneer in the organization of the enlarged meat-inspection service under the 1906 law. During the 1924 outbreak of foot-and-mouth disease in California, he was in charge of the Federal and State forces which eradicated the malady. Shortly after the Bureau completed its fortieth year of existence in 1924, he compiled a historical sketch of its accomplishments. The book is generally appraised as the best composite record of the Bureau of Animal Industry's service to the livestock industry and the public.

NEW PUBLICATIONS OF THE BUREAU

[The Bureau keeps no mailing list for sending publications to individual employees but sends copies to officers in charge of stations and offices. These publications should be regarded as notification copies. So far as possible additional copies will be furnished on request.]

Farmers' Bulletin 1721. Determining the Age of Farm Animals by their Teeth. By George W. Pope, Field Inspection Division. Pp. 14, figs. 31.

Farmers' Bulletin 920 (slightly revised). Milk Goats. By Edward L. Shaw, formerly of Animal Husbandry Division. Revised by C. G. Potts, Animal Husbandry Division. Pp. 32, figs. 18.
